There are numbers in each of the cells that make up the maze. Go through adding all the numbers you pass. You may not go through any cell more than once.

Use the Maze 100 and find a path through the maze.

- Can you find a way through in which the numbers add to exactly 100?
- What is the lowest number you can make going through the maze?
- What is the highest number you can make going through the maze?
